LEARNING ENVIRONMENTS IN ELT FOR STUDENT CENTERED LEARNING

PRACTICAL WORKSHOP ON MANAGING
AND USING MATERIALS EFFICIENTLY

In collaboration with: **RETE CLIL della Provincia di Pavia**

The seminar will be a hands on practical workshop on how, in a learner centered world, we as teachers can really make the most of the materials available to us and how best to apply them within the learning environments both at school and at home. Looking at activity types, lesson planning and technology integration for both online and offline classrooms and for homework and self study. By the end of the workshop the participants will be able to understand, apply and use clear indications and best practices across the learning environments.
