

R14: Involvement of local school authorities

The MESA Project has been presented to various local educational institutions, not so much for a simple demonstration of a work, but mainly to show and underline how it is possible to connect the world of school to the world of work which is certainly one of the main characteristics of this project. There was unanimous appreciation for the quality and educational innovation proposed in the MESA project. Even the local press was interested in this initiative and the two main local newspapers have given wide coverage to the results obtained from the MESA. Below it is given an example of an article in the "Provincia Pavese.

Il Dirigente dell'Ufficio Scolastico Territoriale di Pavia (Prof. Giuseppe Bonelli) ha voluto provare la minicar con uno studente e poi ha deciso di pubblicare una sintesi del progetto sul sito ufficiale dell'UST di Pavia. Il dirigente ha espresso un parere molto positivo sui risultati ottenuti e si è complimentato con studenti e docenti.
